Background

Murrumbidgee Council is committed to engaging with its community and staff in relevant and meaningful ways, and is cognisant of the ever increasing and important role of online social media for communication, engagement and interaction in 2016 and beyond.

This policy and guidelines will promote wider and responsible use of these technologies within the organisation now and into the future. Online collaboration technologies are changing the way we work, providing new avenues to engage with customers, colleagues, and the public. They provide new models for interaction and can help build stronger, more successful relationships.

If you are a Murrumbidgee Council staff member, employee or contractor, volunteer and are creating, using or contributing to social media then these guidelines are designed to assist you.

Policy Scope

This policy applies to all Council officials (for the purpose of this policy - Council staff, volunteers and contractors) utilising social media platforms.

Policy Purpose

This Policy provides clarification for Murrumbidgee Council concerning Social Media use in relation to obligations under the Code of Conduct, including:

- the provisions of the Code of Conduct that hold employees accountable for the consequences of their private actions where they may have a bearing on their standing as a public official;
- reinforcing that breaching the Code of Conduct when using social media may result in disciplinary action.

Policy Objective

To define the responsibility of staff when using social media in public within the work environment and to differentiate this activity from private use.
