MEDIA RELEASE

21 November 2017

COLEAMBALLY STREETScape MASTER PLAN

A project that will set Coleambally's town centre up as an economic, social and cultural hub was the subject of discussion last week.

Murrumbidgee Council recently appointed Red Belly Landscape Architecture to create the Draft Master Plan for the Coleambally Town Centre Revitalisation Project.

The redesign of the town centre street scape is being led by Murrumbidgee Council in collaboration with the Coleambally Chamber of Commerce and Industry Inc.

Representatives from Council, Coleambally Chamber of Commerce and other community members met with project architect Garry Murray last week.

Murrumbidgee Council General Manager Craig Moffitt said the objective of the project was to ultimately enhance the town centre.

"We had a constructive meeting with the consultant last week which allowed him to develop a better understanding of the community's views and ideas," Mr Moffitt said.

"The main aim of this Master Plan is to guide the town centre improvement works to enhance and future proof the town centre as the economic, social and cultural hub of the Coleambally Township.

"It's important that we develop a creative and engaging Master Plan which speaks to and captivates multiple audiences."

The focus area of the Draft Master Plan encompasses land generally contained within Brolga Place and Kingfisher Avenue, with the proposed Sporting Precinct also being considered.

Preliminary concept ideas for the Plan will be discussed in mid-December and a draft will be submitted to the February Council meeting.
